COAST CLIPPINGS.

Forest fires are still raging in all directions about Portland, Oregon.

William Clark was found dead Thursday near You Bet, Nevada county.

The steamer Oceanic, that sailed Wednesday, carried 335 Chinese in the steerage.

Valentine Sells, while riding a harvesting machine near Buena, M. T., was thrown in front of the cutter. His foot was cut off at the ankle.

David Simmons was killed in a tunnel on the Northern Pacific railroad in Washington Territory a day or two ago, by a rock falling upon him.

John A. Haderman of Minnesota recently appointed Resident Minister at Siam, sailed from San Francisco on the Oceanic Wednesday for the scene of his labors.

Carefully prepared statistics show that Scott's Valley, Siskiyou county, has produced this year about 100,000 bushels of wheat, 85,000 of oats, and about 15,000 of barley.

A Apache County, A. T., has 114 miles of railroad. The taxable property of the county, exclusive of the Atlantic and Pacific railroad, amounts to \$654,501. The railroad assessment is \$55,000, making a grand total of \$1,209,501.

Charles Hansen, an Arizona prospector, lately found, sixteen miles from Gilia, the skeletons of a man and burro. There was a pack saddle, blankets and utensils lying near. The remains were, doubtless, those of an unfortunate prospector who got lost and perished for lack of water, or was bitten by some poisonous reptile.

A Mexican was run over at the Atchison, Topeka and Santa Fe yard, at Charleston, A. T., last Monday morning. His head, both legs and one arm were severed from his body. He was lying under a car on the side-track. The engine was making up a train, and hooked onto the string of cars, one of which he was under.

Leadville will produce 44,000 tons of lead this year. Her output was 22,000 tons for the first six months. Utah's output will be 8,000 tons in advance of last year, or 29,000 tons. Nevada will show a falling off, while Missouri is on the increase. Arizona will also be a large producer for the last half of this year. The outlook for an advance in price is not brilliant at this time.

The Peculiar Texas Steer. A Wyoming man saw a Texas steer standing on the railroad track, and knowing that the express train was due tried to endue the beast to move. Several pieces of board thrown at the ferocious monster failed to move it, until at last, as the train rushed down the track at lightning speed, he seized the steer by the tail and twisted it like a wet towel. At this moment the train struck them both and the result was stupendous. The steer was found two days afterward browsing peacefully in a corn-field, with two driving wheels hung on its horns. No trace of either the man or the engine has been heard of since.

The manufacturer of the Chem Baking Powder, Mr. Rohrer, 125 Locust street, St. Louis, Mo., says that St. Jacobs Oil cured his wife of chronic neuralgia in one night, after a few drops treatment by the ablest physicians.

D. Pechner of Reno would be a good man for Secretary of the Convention on Monday. He has served the County Convention in a similar capacity with perfect success.

A. H. Barnes has been playing with the bees and the hot little honey-maker got the best of the game. Mr. Barnes' hands and face are badly swollen from the effects of their stings.

Mr. Woodburn's Platform. Regarding his candidacy for the Gubernatorial nomination, Hon. Wm. Woodburn yesterday said to an *Enterprise* reporter: "I do not propose to interfere with any pronounced candidate, but if the convention decides to nominate an outside man and I can get the nomination, I will take it. That is all." Mr. Woodburn will be in Reno during the convention. He thinks the delegates will hold a caucus, and that it will be known whether or not any of the present candidates can be nominated before the convention meets.

Opening Night. J. F. Cooke opens the doors of the old corner to-night, and will entertain his friends in a princely manner. Mr. Cooke is an experienced saloon man and understands every branch of the business. He will make the Merchants' Exchange a home for all respectable people. Files of the latest newspapers will be kept, and a quiet room to read and smoke in will be provided. His card rooms are nicely furnished. His stock of drinkables is first-class. Opening this evening. Fine lunch, etc.

An Honest Baggage-Smasher. Last evening at the depot a lady handed her ticket to Harry Muzzy, the local baggage-smasher, to get her trunk checked. In a few moments he returned, with the remark: "You may need this five dollars, madam, before you get through travelin'. A wife had got mixed up with the ticket in the lady's purse. In any other place in the world, she would never have seen that money again. But Harry is an exception to the general run of baggage-hounds."

CONNOR AND CONNOR.

The Mormons' bitter Against Cassidy, and in Favor of Their Old Enemy, General Connor.

[Reno River Reveille.]

In the matter of preference between General P. E. Connor as Republican candidate for Congress from this State, and Hoa G. W. Cassidy, the Democratic candidate, it is but natural that there should be a wide difference in opinion and preference between the Mormons and Gentiles of Utah Territory. With the Mormons there is no Republican or Democratic party. It is either Mormon or anti-Mormon—for us or against us. They have never had any occasion to love General Connor, but for his actions and speeches in Congress on the Mormon question they do most cordially hate Cassidy. The Salt Lake Herald, one of the Mormon papers, comes out in a long editorial hoping that General Connor will be nominated and elected to Congress instead of Cassidy. It says:

"Between the two men, Connor and Cassidy, there can be no comparison, for one is fair, frank and manly in opposition, the other, tricky, deceitful and sneaking. The Democrats ought to elect the Congressman in Nevada this fall. They have the votes, and that more potent agent in sage-brush politics—money; but if they are going to employ them in behalf of Cassidy, it is hoped that enough Democrats will have sufficient respect for themselves and the party to defeat him, even if in doing so they elect a square Republican."

The Tribune, on the contrary, lauds Cassidy to the skies, saying:

"He has done gallant service in the cause of Utah Democracy and true American government here, and for this he will have the undying good wishes of all of us."

Of the Mormon raid against Cassidy and in favor of General Connor, the Tribune says:

"Their raid on Mr. Cassidy is but another exemplification of the well-known fact of their disregard of all persons except friendly to the Mormon party. But at the same time, it would be an amazing sight to see Americans and Mormons pulling together once, even if the contest does lie outside of Utah's boundaries. It would be a sort of political millennium, wherein the ravening church wolf would lie quietly down by the side of the American lamb."

HONORS ARE EASY.

Bulldozing was the order of the day at the Democratic primaries held yesterday at Virginia. The Chronicle says:

"There has been no pretense of fairness in the manner in which the election is being conducted. Bulldozing and wholesale repeating have been the leading characteristics of the infamous affair. It will be a miracle, indeed, if the county does not go solidly for Canavan under the circumstances. Most men would consider it a disgrace to be represented in a State Convention by a delegation secured by such means." But honors are easy, for it would seem that Adams returned the compliment in *Irreverie*. The Tribune says: "The Adams men have a majority of the judges at the primaries to-day; the Canavanites are successfully bulldozed. Whenever an adherent of the latter presents a vote he is challenged, and if he does not answer all the questions propounded he is refused a vote; but an Adams man is permitted to vote regardless of his answers. If Canavan is beaten hero-to-day it will be on account of such bulldozing."

HARVESTING ON THE MEADOWS.

Harvesting on the Truckee Meadows is going on as fast as the forces of helpers will permit. The crops are uniformly good. Geo. Alt will have a good yield. Tule Frank has just finished threshing 5,000 bushels of grain in Winnemucca valley. Other ranches have done well. If a man's foresight were as good as his hindsight, anybody could have made money in this valley the present season. There has been rain enough to mature a crop almost anywhere. Frank harvested 480 bushels of barley on land that was not irrigated, and one piece which has raised barley 18 consecutive seasons produced 40 bushels to the acre. Yet the land about here is said to be barren.

A. H. Barnes has been playing with the bees and the hot little honey-maker got the best of the game. Mr. Barnes' hands and face are badly swollen from the effects of their stings.

Mr. Woodburn's Platform. Regarding his candidacy for the Gubernatorial nomination, Hon. Wm. Woodburn yesterday said to an *Enterprise* reporter: "I do not propose to interfere with any pronounced candidate, but if the convention decides to nominate an outside man and I can get the nomination, I will take it. That is all." Mr. Woodburn will be in Reno during the convention. He thinks the delegates will hold a caucus, and that it will be known whether or not any of the present candidates can be nominated before the convention meets.

In any other place in the world, she would never have seen that money again. But Harry is an exception to the general run of baggage-hounds."

THE RAGING TRUCKEE.

The Rise and Fall of Nevada's Mighty River, and the Cause of the Variations.

The Truckee river is at present lower than the oldest inhabitants ever remember of having seen it before. In the afternoons its bed is entirely dry in places where the water has never before failed to run, and the entire volume looks as though it might be confined to an ordinary-sized flume. This apparent drying up of the waters of the river is not, however, occasioned so much by the great quantity of water which is required to supply the many irrigating canals and ditches which tap the river, as most of our people suppose. A close observer will often notice that in the mornings the river has risen several feet, and seems to have enough water to float a canal-boat. This is occasioned by the opening of the gates to large dams which are constructed in the river above Truckee, to enable mill men to float logs down the river during the low-water season. There are several of these dams at intervals of about a mile between Truckee and Tahoe. The loggers fill the river bed with saw-logs from the different canals in the mountains, and when the mills, situated on the river near Truckee, are ready for a new invoice of logs, one or two of these dams which have backed up a large amount of water are opened up and the logs along the river are washed by the flood into the mill pond. By morning the full force of this flood has reached Reno, causing the very frequent and noticeable changes in the quantity of water in the river. Of course, when the gates to these dams are closed the water is backing up for a long distance, the flow becomes very limited until the dams are filled to running over again. Water in the Truckee is still plentiful and with a simple twist of the wrist on the Von Schmidt dam, Lake Tahoe, a quantity could be sent down here that would more than satisfy the most thirsty alfalfa patch. At each opening of the gates an unusually large quantity of sawdust is brought down the river this season, despite the laws of California and Nevada and the efforts of the Fish Commissioners to prevent it.

COMPANY C. ATTENTION!

The members of Reno Guard are requested to be at the Armory on Wednesday evening, September 6, at 7:30 o'clock sharp. Notice will be served upon each member personally by the Secretary, and all members who fail to comply with the order will be subject to the usual fine for absence. Fair week is close at hand, and as the citizens of Reno have taken a friendly interest in the company and are anxious to see the members acquitted themselves creditably, the entire roll-call are expected to be on hand at the next meeting. There are a number of members holding uniforms out who never put in an appearance at the armory. As there are new members coming in who will need uniforms for the Fair parade, those who cannot make it convenient to attend will oblige the active members by returning them to the Armory at the next meeting. Business of special interest to all who intend to drill for the Fair tournament will be transacted on Wednesday evening, and every member who desires to become efficient in the manual of arms and rank movements will be on hand.

A FACT WORTH KNOWING.

F. Levy & Bros.' Fall clearance sale begins next Monday, and it is to the advantage of every lady in the county to give them a call. The firm has a large stock of dry goods to dispose of in order to make room for their new stock soon to arrive, and prices will be put down at such a low figure that every wife and mother can afford to get themselves and children new dresses. No better opportunity was ever offered to the public. Mr. Levy says the stock must be reduced, no matter how great the sacrifice. The sale will commence next Monday morning and continue all the week.

TRYING TO GET SONS.

The Chronicle says: Postmaster Adkison yesterday had Alvaro Evans, the Republican aspirant for gubernatorial honors, by the button-hole for about two hours, on O street, trying to explain how it was that he adjourned the Yerington circus at Piper's Opera House about four weeks ago. It was the first time that Nasby had a chance to square himself with Evans since the circus, and he had hard work to convince the hornsy-fisted granger that he had always loved him.

THE GAME DON'T SHOW UP.

The duck-hunters were out in full force yesterday, and ranged all the way from here to Glendale, with slim results, notwithstanding the report that the birds were to be seen in immense flocks. "Spider" and Jack Fitzgerald, after a hard tramp through banks of mosquitoes, succeeded in bagging four mallards and one teal.

NOT A WALKOVER.

There will probably be a contest over the Attorney-Generalship. Hobart says Eureka's twelve votes will be solid for Davenport, and that is the only nomination Eureka will ask for. J. A. Stevens of Virginia is also talked of; Mr. Boardman of Washoe is the most prominent candidate.

AN INDEX OF VAGS.

There are lots of rough customers in town now, who center here from all quarters to "work" the convention and pick up suckers at the State Fair. Some of them are old criminals, well known to the police. Captain Byrne, the night watchman, pointed out to a *Gazette* reporter last night several hard-looking individuals, whom he knew as ex-convicts, or persons suspended by the police. Reno, at this season of the year, seems to be the objective point of tramps and deadbeats.
